

Public Consultation

Blaenau Gwent's Budget 2024-25

We're looking to engage with residents about the Council Budget for 2024/25. Last year over 3,000 of you gave us your views on what was important to you!

The Council is facing a range of financial pressures which has resulted in a significant funding gap. We have put together a series of savings and efficiencies proposals to try and address this shortfall, which we'd like your opinion on. These proposals include changes to services, potential income generation and an increase in Council Tax.
